James Herriot is back with new creatures and crises.

*All Creatures Great and Small, Season 3*

MASTERPIECE’s adventures of a Yorkshire country vet continue

Sundays, January 8 – February 19, 2023

Wedding bells chime and animal ailments abound as MASTERPIECE presents the highly anticipated third season of *All Creatures Great and Small*, based on the bestselling memoirs by veterinarian James Herriot and starring a beloved ensemble cast led by Nicholas Ralph. Season 3 of the acclaimed series airs in seven episodes, Sundays, January 8 – February 19, 2023 on PBS.

*All Creatures Great and Small* has been lauded by critics and audiences alike, with more than 10 million viewers tuning in across its first season. The second season garnered a similarly enthusiastic reception, with *Variety* praising the “stunning Yorkshire setting, warm storytelling and animal hijinks” and *Vulture* hailing the series as “extremely heartwarming.”

Ralph (*The Devil’s Light*) stars as the young James Herriot who, in season 3, is struggling to balance his growing responsibilities at the veterinary practice with his responsibilities as the newly wedded husband to Helen Alderson, played by Rachel Shenton (*Academy Award® winner, The Silent Child*). Helen, herself, faces difficulties letting go of her old life on the family farm with her father and sister and finding her new place within the walls of Skeldale House.

Callum Woodhouse (*The Durrells in Corfu*) returns as Tristan Farnon who has at last passed his exams and must now face the world as a qualified vet, while Anna Madeley (*Mr. Selfridge*) returns as motherly housekeeper Mrs. Hall who is beginning to open herself up to a future outside of her duties managing the household.

As war with Germany looms on the horizon, Siegfried Farnon, the irrepressible but unpredictable proprietor of Skeldale House, played by Samuel West (*Hyde Park on Hudson*), contends with painful memories of his own experiences during the First World War, when he served in combat with the Army Veterinary Corps. And Patricia Hodge (*Roadkill*) is back as Mrs. Pumphrey, the wonderfully eccentric owner of Tricki, the pampered Pekingese.

Season 3 begins in spring 1939 as James and Helen prepare to walk down the aisle. With a new stake in the business, James is trying to expand the veterinary practice by joining a government program to test for tuberculosis in cattle. The initiative pays well, but it is looked upon with suspicion by the local farmers who run the risk of their farms being shut down if a positive case is found.
Audiences returning to Herriot’s heartwarming depiction of the fictional town of Darrowby will be treated to more of his life-affirming stories that have seen the series touch the hearts of millions since its launch in 2021. As the *New York Times* observed, *All Creatures Great and Small* “is a frame for a series of small but important moments for the principal characters: a first kiss, a rapprochement between brothers, a gesture of kindness toward a rival… a cheerful, optimistic tone prevails despite the distant rumblings of war.”

**Season Description**
James Herriot and crew deal with sick animals, eccentric farmers, courtship, and strict government mandates in a new season of the series lauded for its “soothing tone” by the *New York Times*. Change is the order of the day as professional and emotional relationships mature in the rural Yorkshire veterinary practice immortalized by author James Herriot’s charming stories. Themes for Season 3 include new partnerships, ghosts from the past, and doing one’s duty—and of course doing right by the animals. “A lovely series grounded in a great respect for nature and all living things,” enthused the *Boston Globe*.
